Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Applicant's amendment filed on 4/6/07 was entered.

Amended claims 50, 52, 55-63, 65-68, 70, 72-78 and 82-84 are pending in the present application, and they are subjected to the following species restriction.

Species Election/Restrictions

This application contains claims directed to the following patentably distinct species:

(a) A method for inducing formation of new blood vessels in a mammal having chronic or acute ischemia, comprising administering to the mammal an effective amount of VEGF and GM-CSF or an effective fragment thereof;

(b) A method for inducing formation of new blood vessels in a mammal having chronic or acute ischemia, comprising administering to the mammal an amount of GM-CSF sufficient to increase frequency of endothelial progenitor cells in the mammal;

The species are independent or distinct because the above methods utilize different starting materials that have different specific components, and that they may have different properties one from the other. For this instance, the method of species (a) utilizes a composition comprising an effective amount of both VEGF and GM-CSF or its fragment; whereas the method of species (b) does not require the presence of VEGF in the administered composition.

Art Unit: 1633

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
